

Greenhouse Gas Verification Statement

The inventory of Greenhouse Gas emissions in
1st January 2009 to 31st December 2009 of

Shenzhen Bencent Electronics Co., Ltd.

深圳市槟城电子有限公司

1F-2F, Northeast of Building 1, Pingshan Minqi Science & Technology Park, Pingshan
Village, Nanshan District, Shenzhen City, Guangdong Province, China
中国广东省深圳市南山区平山村平山民企科技园 1 栋东北面 1 楼-2 楼
Building 1 and 2, Pingshan Minqi Dormitory, Liuxian Avenue, Xili Town, Nanshan District,
Shenzhen City, Guangdong Province, China
中国广东省深圳市南山区西丽留仙大道平山民企宿舍 1 和 2 栋
has been verified in accordance with ISO 14064-3:2006 as meeting
the requirements of

ISO 14064-1:2006

Direct Emissions

29.26 tonnes of CO₂e

Energy Indirect Emissions

431.14 tonnes of CO₂e

Other Indirect Emissions

1.93 tonnes of CO₂e

Total Direct, Energy Indirect and Other Indirect Emissions

462.33 tonnes of CO₂e

Authorized by

Director

Date: June 21, 2011

SGS HongKong Limited

This Statement is not valid without the full Greenhouse Gas Assertion and the verification scope, objectives, criteria and findings available on pages 2 to 4 of this Statement.

SGS has been contracted by Shenzhen Bencent Electronics Co., Ltd. (hereinafter referred to as "CLIENT"), 1F-2F, Northeast of Building 1, Pingshan Minqi Science & Technology Park, Pingshan Village, Nanshan District, Shenzhen City, Guangdong Province, China, for the verification of direct, energy indirect and other indirect Greenhouse Gas emissions in accordance with

ISO 14064-3:2006

as provided by Shenzhen Bencent Electronics Co., Ltd. (hereinafter referred to as "RESPONSIBLE PARTY"), 1F-2F, Northeast of Building 1, Pingshan Minqi Science & Technology Park, Pingshan Village, Nanshan District, Shenzhen City, Guangdong Province, China, in the Greenhouse Gas (GHG) Assertion in the form of GHG Report covering GHG emissions of the period 1st Jan 2009 to 31st Dec 2009.

Roles and responsibilities

The management of the RESPONSIBLE PARTY is responsible for the organization's GHG information system, the development and maintenance of records and reporting procedures in accordance with that system, including the calculation and determination of GHG emissions information and the reported GHG emissions.

It is SGS's responsibility to express an independent GHG verification opinion on the GHG assertion as provided by the RESPONSIBLE PARTY for the period 1st Jan 2009 to 31st Dec 2009.

SGS conducted a third party verification of the provided GHG assertion against the requirements of ISO 14064-1:2006 in the period 11th May 2011 to 7th June 2011. The verification was based on the verification scope, objectives and criteria as agreed between the CLIENT and SGS on 17th May 2011.

Level of Assurance

The level of assurance agreed is that of reasonable assurance.

Scope

The CLIENT has commissioned an independent verification by SGS-CSTC Standards Technical Services Co., Ltd. to assure the reported GHG emissions of the RESPONSIBLE PARTY, as arising from the design, manufacture and sale of surge and over-voltage protection components activities, be in conformance with ISO 14064 requirements within the scope of the verification as outlined below. The data and information supporting the GHG assertion were historical in nature.

This engagement covers verification of emission from anthropogenic sources of greenhouse gases

included within the organisation's boundary and is based on ISO 14064-3:2006.

- The organizational boundary was established following operational control approach.
- Title or description activities: GHG verification of year 2009 for RESPONSIBLE PARTY
- Location/boundary of the activities:
 - 1F-2F, Northeast of Building 1, Pingshan Minqi Science & Technology Park, Pingshan Village, Nanshan District, Shenzhen City, Guangdong Province, China;
 - Building 1 and 2, Pingshan Minqi Dormitory, Liuxian Avenue, Xili Town, Nanshan District, Shenzhen City, Guangdong Province, China.
- Physical infrastructure, activities, technologies and processes of the organization:
 - The design, manufacture and sale of surge and over-voltage protection components.
- GHG sources, sinks and/or reservoirs included: GHG sources as presented in the 2009 GHG Report of the RESPONSIBLE PARTY.
- Types of GHGs included: CO₂, CH₄, N₂O, HFCs, PFCs, SF₆.
- GWP adopted: IPCC Fourth Assessment Report (AR4).
- GHG information for the following period was verified: 1st Jan 2009 to 31st Dec 2009.
- Intended user of the verification statement: Private user.

Objective

The purposes of this verification exercise are, by review of objective evidence, to independently review:

- Whether the GHG emissions are as declared by the organisation's GHG assertion
- The data reported are accurate, complete, consistent, transparent and free of material error or omission.

Criteria

Criteria against which the verification assessment is undertaken are the requirements of ISO 14064.

Materiality

The materiality required of the verification was considered by SGS to 5%, based on the needs of the intended user of the GHG Assertion.

Conclusion

The RESPONSIBLE PARTY provided the GHG assertion based on the requirements of ISO14064-1:2006. The GHG information for the period 1st Jan 2009 to 31st Dec 2009 disclosing emissions of 462.33 tonnes of CO₂ equivalent are verified by SGS to a reasonable level of assurance, consistent with the agreed verification scope, objectives and criteria.

SGS's approach is risk-based, drawing on an understanding of the risks associated with reporting GHG emissions information and the controls in place to mitigate these. Our examination includes assessment, on a test basis, of evidence relevant to the amounts and disclosures in relation to the organization's reported GHG emissions.

We planned and performed our work to obtain the information, explanations and evidence that we considered necessary to provide a reasonable level of assurance that the GHG emissions for the period 1st Jan 2009 to 31st Dec 2009 are fairly stated.

We conducted our verification with regard to the GHG assertion of 2009 GHG Report of the RESPONSIBLE PARTY which included assessment of GHG information system and reporting plan/protocol. This assessment included the collection of evidence supporting the reported data, and checking whether the provisions of the protocol reference, were consistently and appropriately applied.

In SGS's opinion the presented GHG assertion

- is materially correct and is a fair representation of the GHG data and information, and
- is prepared in accordance with ISO14064-1:2006 on GHG quantification and reporting.

This statement shall be interpreted with the GHG assertion of 2009 GHG Report of the RESPONSIBLE PARTY as a whole.

Note: This Statement is issued by SGS-CSTC Standards Technical Services Co., Ltd. ("SGS") under its General Conditions for Greenhouse Gas Validation & Verification Services. The findings recorded hereon are based upon a verification performed by SGS. A full copy of this statement, the findings and the supporting GHG Assertion may be consulted at **1F-2F, Northeast of Building 1, Pingshan Minqi Science & Technology Park, Pingshan Village, Nanshan District, Shenzhen City, Guangdong Province, China**. This Statement does not relieve Client from compliance with any bylaws, federal, national or regional acts and regulations or with any guidelines issued pursuant to such regulations. Stipulations to the contrary are not binding on SGS and SGS shall have no responsibility vis-à-vis parties other than its Client.
